

## Medical Jobs Consulting

Our two-pronged consulting service provides the solutions and tactics you need to achieve your strategic, operational and financial goals faster.

### Practice Management

We consult physician practices, both private and employed groups, on all operational variables (from front office to clinical operations to board of directors). Reach your goals faster with practical and proven solutions optimized for today's ever-changing healthcare environment. Our progressive team provides expertise in the following areas:

- Interim executive leadership
- Financial benchmarking
- Operational and performance improvement strategies
- Growth, profitability and improvement strategies
- Physician practice start-up
- Revenue cycle review
- Reduction of Medicare risk program
- Contract negotiations
- Process improvement and redesign
- Business intelligence dashboard development
- Performance measurement systems and predictive indicators
- Valuation and compliance services
- Marketing solutions designed specifically for your practice
- Strategic planning and business development
- Brand development and positioning

## **Workforce Management**

We assist hospitals, groups, private practices and additional healthcare delivery systems with a full range of workforce solutions. Revitalize your operation and enhance your team's performance with strategies that ensure success:

- Candidate sourcing
- In-house recruiter training and development
- Recruitment infrastructure
- Best practices
- Ongoing training
- Candidate on-boarding
- Candidate retention
- Medical staff plan implementation
- Managed service provider
- Contract negotiation and management
- Agency cost management
